	Galaxy Tab A	micro USB 2.0	9.7 / 10.1	T2700-PLUM			

Note:

1. Tablet to speaker audio jack connections do not permit the microphone from speaker enclosure to connect back to the tablet
2. Bluetooth connections are bidirectional and both speaker and microphone signals are transmitted and they work for all devices listed above
3. Both Jabra 410 and JBL Go 2 are teleconferencing devices and for both devices the performance of speaker and microphone far exceed the capability of tablet installed parts
